Stance on Human Embryonic Stem Cell Research

[https://www.mskcc.org/research-programs/stem-cell-biology#:~:text=The%20Center%20for%20Stem%20Cell%20Biology%20\(CSCB\)%20was%20established%20in,core%20facilities%20and%20trainings%20programs](https://www.mskcc.org/research-programs/stem-cell-biology#:~:text=The%20Center%20for%20Stem%20Cell%20Biology%20(CSCB)%20was%20established%20in,core%20facilities%20and%20trainings%20programs)

Sloan Kettering's Center for Stem Cell Biology admits to their use of human embryonic stem cells in the following quote on their web page:

"In recent years research has expanded to new areas such as neural stem cells, embryonic stem cells, and induced pluripotent stem cells. The CSCB will link these existing stem cell research efforts and build the resources critical for new developments in the future."

<https://www.mskcc.org/research-areas/topics/stem-cells#:~:text=Our%20scientists%20are%20breaking%20new,both%20normal%20development%20and%20cancer>

According to this quote on their website, Sloan Kettering again admits to using human embryonic stem cells in their research: "Our scientists are breaking new ground in developing therapies and disease models based on embryonic or induced pluripotent stem cell."

<https://cancerhistoryproject.com/institutions/msks-sloan-kettering-institute-celebrates-75-years-of-discovery/>

This article celebrates Sloan Kettering's 75th anniversary by praising their accomplishments: "They've figured out how to derive dopamine-producing neurons from **human embryonic stem cells**, setting the stage for new treatments for Parkinson's disease."

Stance on LGBTQ+ Lifestyle

<https://www.hrc.org/resources/healthcare-facilities/memorial-sloan-kettering-cancer-center-3>

Sloan Kettering has a 100-rating score by the Human Rights Campaign for their LGBTQ+ support that goes beyond non-discrimination training and practices. For
