

Feed the Children

Stance on Abortion and Contraception

<https://www.feedthechildren.org/our-work/around-the-world/guatemala/>

Feed the Children says the following about Guatemala, which is one of the regions they work in:

Over 60% of Guatemala's population lives in poverty contributing to unacceptably poor social indicators in the areas of health and development, including infant, child, and maternal mortality, malnutrition, literacy, **and contraceptive awareness and use**. Nearly one-half of Guatemala's children under age five are chronically malnourished, one of the highest malnutrition rates in the world. The country's large indigenous population is disproportionately affected by poverty and disease. Almost half of Guatemala's population is under age 19, making it the youngest population in Latin America.

ALL asked them for further clarification on this statement.

Brigeita Jefferson, Feed the Children's president of international operations, worked for the [International Rescue Committee](#), which is very vocal in support of abortion. Jefferson was there over a year; however, she does follow several members of the Bill and Melinda Gates Foundation on her [LinkedIn page](#).

Bregeita Jefferson
President of FEED International

Pricing and Costing, and Global Risk and Compliance. As the VP of Business Operations my primary role is to direct and lead operations along the entire project lifecycle of the organization. Creating robust, yet nimble operating models that support growth, compliance and efficiency. Providing the business with a sound platform of sophisticated and well-integrated systems that support project and resource management, CRM, and business intelligence to drive better decision making. Helping to build a performance oriented and continual improvement environment with a culture of accountability and strategic alignment.
