MAP International’s 2023 annual report lists the organizations (p. 15) they provide medicine to. It includes Children International, International Relief Teams, and ChildFund International (See more at <https://all.org/charity-watchlist>). They also work with Cross Catholic Outreach and Food for the Poor, which do uphold pro-life values.

The power of partnership

When you support MAP, you support our network of 300+ on-the-ground partners.

“Many mission hospitals and clinics all over the world lack the medicines and supplies they needed to treat their patients, but with the support of MAP International, we are restoring hope and rebuilding health systems.”

— Dr. Harold Mayweather, Uganda, Soul of My Footprint

The supplies and sutures donated by MAP are essential. Without them, we would not be able to complete these surgeries.

— Dr. Ryan Brown, Peru, Healing the Children

Each of our carefully chosen, on-the-ground partners uses MAP medicine to make a long-lasting impact both domestically and in countries all over the world. We tailor each shipment of medicine to directly meet the needs of the local communities our partners serve.

MEDICINE FOR ALL PEOPLE 15

The power of partnership

MAP is a trusted partner to more than 90 pharmaceutical and healthcare companies. By serving as an international liaison and distributor of medicine, MAP connects corporate partner donations with in-country partners in desperate need of medicine. In doing so, MAP plays a pivotal role in advancing global health.

MEDICINE FOR ALL PEOPLE 17

On page 17, MAP International shows that they partner to provide medicine and support to Johnson & Johnson (See more at <https://www.reuters.com/world/us/companies-offering-abortion-travel-benefits-us-workers-2022-06-24/>).

In an email response to ALL, MAP International stated the following: “MAP does not support abortions or contraceptives. We do not provide contraceptive items to other organizations either.”
