This measure would:

- Extend the current law to allow abortion up to viability, as determined by the mother's healthcare practitioner
- Keep exceptions post viability for rape, incest, or to protect the life or health of the patients, as determined by providers (this could result in later-term abortions)

NEBRASKA'S CURRENT LAW:

Abortion is legal in Nebraska until 12 weeks with exceptions for rape, incest, and to protect the life or physical health of the mother. Counseling is required. Parental permission is required if the mother is 17 or younger.

Catholics should vote **NO** on Nebraska Right to Abortion Initiative

A human being's life begins the moment the sperm fertilizes the egg. This is now a unique and unrepeatable person.

Abortion is the intentional killing of a human being before he or she is born. The Catholic Church teaches that abortion is never morally licit.

The Church teaches that neither rape nor incest justifies the taking of an innocent human being's life.

Doctors never need to intentionally kill the baby to save the mother's life; therefore the "life of the mother" argument is invalid. In his address to midwives, Pope Pius XII taught that a physician should do all he can to preserve both lives. If the baby dies while the doctor tries to save the mother, this is not considered an abortion.

Any formal cooperation in abortion constitutes a grave sin. The Church attaches the canonical penalty of excommunication to this crime against human beings (CCC 2272).
