Crisis Aid International

ABORTION & CONTRACEPTION

- A representative from Crisis Aid International contacted ALL to confirm that the organization upholds pro-life values and does not promote abortion and contraception:

At Crisis Aid, we believe that life is a precious gift from God and are committed to protecting it at every stage of development and age. Our mission has always been to Save Lives, Save Souls, and Change Futures, and that includes encouraging and supporting the young women we serve in our Anti-Trafficking Programs to choose life for their babies, even in the midst of incredibly difficult circumstances. Again and again, we've witnessed how what began as a moment of crisis can become a beautiful story of hope and new beginnings. Every life is worth celebrating, and we are honored to walk alongside these women and their children as they step into that future...I can confirm that Crisis Aid International does NOT promote or take part in "Reproductive Health" like abortions or contraceptives.
