CONTRACEPTION

- A [resource page](#) encourages women with lupus to use birth control:
Birth control can help you prevent an unplanned pregnancy. There are lots of safe and effective birth control options for people with lupus. Your doctors can help you find a birth control method that works for you.

- The HPV vaccine and contraception (particularly birth control and IUDs) are promoted on [a resource page for teens and young adults](#). Under the subheading "Sexual activity," the foundation features a quote from a Duke University doctor:

I've been having a lot of teenagers show up in my clinic pregnant, so contraception is really key.
